Ms. Marlene Dortch Secretary Federal Communication Commission 445 12th St. SW Washington, DC 20554

Re: WC DOCKET NO. 12-4

Verizon-SpectrumCo Transaction

Addendum to Summary of Ex Parte Meeting

Dear Ms. Dortch:

This letter corrects and supplements the summary of an *ex parte* meeting June 13 at the Commission's offices between myself, Dr Alan Pearce, and Eric Steinmann, and the persons copied at the end of this letter by clarifying two of the points made at the meeting. In addition to the points noted in my summary of June 14, Mr. Steinmann stressed that handsets for Verizon's competitors must be available within a reasonable period of time at a reasonable markup from Verizon's cost and in volumes small enough for Tier III carriers to purchase. Mr. Steinmann suggested that handsets be available to other carriers not more than 3 months after Verizon has them and at a price that is no more than 5% higher than Verizon's costs. He also suggested that handsets be orderable in quantities as small as 1000 units. The units should be configured to operate out of the box as a roaming phone on Verizon's network.

In addition, both handsets *and* other wireless devices sold by Verizon must be capable of delivering both voice and data service across the AWS spectrum. This is necessary because Verizon's use of the bands will shape and control the use of the band by all other carriers.

Fletcher, Heald & Hildreth

Ms. Marlene Dortch June 18, 2012 Page 2

NTCH requested that approval of the SpectrumCo transaction be conditioned on these Verizon meeting these obligations.

Sincerely,

Donald J. Evans

Counsel to NTCH, Inc.
